THE BABY'S FOOD. By Isaac Abt, M.D., Professor of Diseases of Children in the Northwestern University Medical School, Chicago. W. B. Saunders Company, Philadelphia. Price, \$1.25.

Because Dr. Abt recognized the need of accurate recipes for preparing food for young children, he has made this collection from various well recognized sources. There is no attempt made to dictate diets or advocate a new theory. The small size and concise style should secure for it a ready acceptance.
